Our Web3 Transparency Pledge

- ' All transactions are recorded on BNB Smart Chain and publicly verifiable by anyone.
- ' Smart contract source code will be verified and published on BscScan before listing.
- ' No hidden wallets, no insider allocations — every token movement is traceable on-chain.
- ' This report is auto-generated from live data. No manual editing, no inflated numbers.

- ' We publish regular transparency reports so investors always know the real state of the project.
- ' Our bonding curve pricing is algorithmic — no manipulation, the math is public.
