

RECYCLED CONTENT TRACKING WORKSHEET

EU Battery Regulation 2023/1542 — Annex XIII Recycled Content Compliance

Use this worksheet to record the recycled content percentage for each critical mineral across your supplier list. Complete one row per supplier per mineral. Retain this worksheet as part of your Battery Passport data documentation.

AGGREGATED RECYCLED CONTENT SUMMARY

Complete this summary table once all supplier data has been collected. The weighted average recycled content % across all suppliers must meet the 2031 targets.

MINERAL	TOTAL SUPPLY VOLUME (kg)	WEIGHTED AVG RECYCLED %	2031 TARGET	MEETS TARGET?	GAP TO TARGET	ACTION REQUIRED
COBALT (Co)			16% min.			
LITHIUM (Li)			6% min.			
NICKEL (Ni)			6% min.			
LEAD (Pb)			85% min.
